

ELEMENTS STAY WHERE THEY BELONG: OUTSIDE.

EVEN IN HIGH WINDS OR STORMS, TPO ROOF SYSTEMS CAN WITHSTAND TREMENDOUS UPLIFT PRESSURES.

IT'S MADE TO WORK WITH COOL ROOFING SYSTEMS AND NEEDS.

THE ADVANCED REFLECTIVITY DOESN'T JUST MEAN WE NEED SUNGLASSES; IT KEEPS COSTS DOWN.

ONCE WE INSTALL, MAINTENANCE IS REDUCED.

THERMOPLASTIC POLYOLEFIN (TPO).

To you, it's a reliable, attractive roofing system.
To the elements, it's an ugly, impenetrable fortress.

North American Roofing

The Most Trusted & Respected Roofing Company in the U.S.

800.551.5602 ■ naroofting.com

TPO is the fastest-growing commercial membrane roofing system around, and is at the forefront of single-ply roofing technology. It's engineered for superior, long-term performance and offers the added benefit of being environmentally sound. Those who've used and installed it find that its advanced reflectivity dovetails nicely with cool roofing solutions, helping to keep storage facilities, warehouses, and working environments more cost-efficient. Further, TPO offers reduced maintenance and is highly versatile, providing resistance to environmental pollutants and chemicals. And those in stormy areas will appreciate that it's abrasion-, tear-, and puncture-resistant. TPO provides LEED credit qualification and is ENERGY STAR rated and Cool Roof Rating Council approved. To investigate the advantages of TPO as your roofing membrane, call us at 800.551.5602.

LET'S TALK THERMOPLASTIC POLYOLEFIN (TPO)

TPO membrane is a heat-weldable blend of polypropylene and ethylene propylene rubber components. It's available in white, gray, and tan, with white the most popular for its high reflectivity. TPO comes in a variety of thicknesses and price options, ranging from 45 mil to 80+ mil, and is suitable for a wide mix of all facility applications and budgets.

THE ADVANTAGES OF A TPO MEMBRANE SYSTEM

TPO offers proven performance for replacing or recovering existing roof systems. Its UV-resistant ability reflects nearly 87% of harsh sunrays away from the roof and can reduce cooling costs in air-conditioned facilities. TPO also offers excellent wind uplift resistance and comes with an average warranty of up to 20 years.

INSTALLATION OPTIONS

TPO can be mechanically attached, fully adhered, or ballasted. Heat-welded seam technology forms an impermeable, monolithic roof membrane seam for optimal strength and leak prevention. Large TPO sheets, up to 12 feet wide, install quickly so you can get on with the business of running your business.

MAJOR MANUFACTURERS

When North American Roofing installs your TPO roof system, you can be confident that you're getting the highest-quality TPO. Not only do we offer our own high-quality TPO systems, but we also partner with the top manufacturers in the nation. They include:

- Carlisle SynTec
- Johns Manville
- GAF
- Firestone

NORTH AMERICAN ROOFING'S FORMULA FOR SUCCESS

By combining superior TPO roofing with professional installation and the best customer service in the industry, North American Roofing earns its reputation for being the most trusted and respected roofing company in the nation.
